Local Tennessee Company Donates Home Plans To Storm and Flood Victims

Woodkrest, a local Tennessee company, is donating home plans to those in need from the recent tornadoes and flooding. Woodkrest originally made the offer to victims of the tornadoes that hit the Yazoo City, MS area but has extended the offer to their own Tennessee neighbors in need that have lost their homes or whose homes have sustained heavy damage from the flooding and storms.

Living in and having family living in various areas of West TN, Woodkrest's owners are all too familiar the terror and devastation left in the wake of tornadoes. Personal and family losses due to tornadoes gave Woodkrest the idea of helping those in need. Sometimes planning for the future in a new home offers more than just hope to those that have been devastated by such a mind numbing tragic event, it provides therapy by keeping anguished minds busy.

Woodkrest, a family owned, national Post & Beam, Timber, and Log material package manufacturer, opened in Memphis in 1984 offering custom designs, superior building materials, cost effective building packages, and a staff dedicated to individual project attention. Woodkrest, a USGBC (United States Green Building Council) national member, offers Green Building innovations and materials to those that have environmental concerns and has a LEED AP (Leadership in Energy Environmental Design Accredited Professional) on staff for consultations.

Woodkrest's Master Designer, Bob Kress, SR., and staff created the designs for the new clubhouse and Callaway Performance Center at Mirimichi Lakes Golf Course in Millington, TN, formerly known as Big Creek Golf, owned by Justin Timberlake and parents. Woodkrest's LEED AP staff member, Teresa Dawn Kress is the Mirimichi green project coordinator for USGBC LEED Certification.

Woodkrest has an extensive website full of photographs and video clips which offer glimpses of traditional homes as well as the typical Woodkrest styles and wants to offer their portfolio of home plans to those that really need it now as a donation to help the victims plan for new and hopefully brighter futures.
